SUMMARY

Software Engineer experienced in building scalable web applications using Golang, ReactJS, and TypeScript. Skilled in microservices architecture with RabbitMQ, Consul, PostgreSQL, Redis, and Docker, with a strong focus on performance and reliability.

EXPERIENCE

PT. Bank OCBC NISP Tbk. (Contracted by PT. Nusantara Duta Solusindo) - Jakarta, Indonesia

Software Engineer (August 2022 - Current)

- Designed, developed, and enhanced scalable applications as a Software Engineer, contributing across both frontend and backend systems using ReactJS, TypeScript, Golang, and modern web technologies.
- Built and maintained microservices-based architectures, leveraging RabbitMQ for asynchronous messaging, Consul for service discovery, PostgreSQL for relational data management, and Redis for caching and performance optimization.
- Containerized applications using Docker to ensure consistent development, testing, and deployment environments across services.
- Collaborated in Agile (Scrum) environments with cross-functional teams and stakeholders, utilizing Jira for effective sprint planning, tracking, and delivery.
- Applied software engineering best practices, including clean architecture, and code reviews, to improve system stability, scalability, and maintainability while reducing bugs.
- Conducted thorough testing, debugging, and performance optimization to ensure high-quality user experiences across customer-facing platforms and internal systems.

PT. IMPACT BYTE TEKNOLOGI EDUKASI (SKILVUL) - Jakarta, Indonesia

UI/UX Designer (August 2021 - December 2021)

- Used wireframes, mock-ups and prototypes to establish user interface design and architecture.
- Conducted live user testing of components and functionality to evaluate effectiveness of designs and enhancements.

INSTITUT TEKNOLOGI SUMATERA – Lampung, Indonesia

Frontend Developer (May 2021 - August 2021)

- Followed SDLC best practices within Agile environment to produce rapid iterations for clients.
- Collaborated with stakeholders during development processes to confirm creative proposals and design best practices.
- Coded using JavaScript and CSS using React Native and Bootstrap to develop features for mobile platforms.

EDUCATION

INSTITUT TEKNOLOGI SUMATERA (2018- 2022)

Bachelor of Informatics Engineering - GPA 3.3

SKILLS

- Web frontend development and Microservices development
- Team work, Communication and Time Management
- HTML, CSS, LESS, JavaScript, TypeScript, Go, Redis, Postgresql, RabbitMq, Consul, Jenkins, Git, Next Js
- ANT Design, Bootstrap and Tailwind CSS
